Kapsch Group

We have the best technical jobs available.

*Graduated at HTL?
Start your career at Kapsch!*

Starting your career at Kapsch, immediately after technical college (HTL).

Are you ...

- > a HTL graduate in one of the following subject areas: Computer science, information and telecommunications technology, communications engineering, industrial engineering, electronic engineering, network engineering, technical sales management or something similar?
- > proactive, team-minded, and able to learn new and challenging concepts quickly?
- > interested in innovations and new technologies?
- > prepared to roll up your sleeves and show your hands-on mentality?
- > someone who almost finished your degree and perhaps already completed an internship?

We offer you ...

- > training from junior to specialist in one of the many technical departments at Kapsch.
- > a large number of career and development opportunities at our Kapsch University.
- > variety of tasks in an international environment.
- > an appreciative company culture in a family company, where you count as an individual.
- > flexible working hours and extensive social benefits.
- > an experienced Kapsch employee who offers you constant support and not only assesses your work, but also helps you on your career path and gives you helpful tips – because we'll never let you down!

We are ...

- > known for our ITS, enterprise and carrier solutions, which are based on wide-ranging technological expertise and experience and specifically tailored to relevant customer needs.
- > proud of our more than 6,800 employees in our global subsidiaries.
- > customer-oriented and offer high-quality customized solutions.

Factbox:

- > Career entry as an HTL graduate
- > Training and further education at our Kapsch University.
- > A mentor is on hand to support you.
- > Application through onestepahead.kapsch.net
- > Selection process: Interview, subsequent feedback discussion and a test, depending on the department.

"As an HTL graduate, I was concerned about also being able to use theoretical knowledge in practice. After working as a commissioning technician at home and abroad and in pre-sales activities, I moved into project management and was ultimately entrusted with the position as head of this department."

Georg Weickel, Head of Project Management Austria
Kapsch BusinessCom AG

"My practical education at a technical college with numerous projects helped me when it came to entering employment. There is a great working atmosphere in the team and I am pleased to work in such a dynamic environment."

Michael Bauer, ICT Technology Solutions Project Support
Kapsch BusinessCom AG

"As an HTL graduate in the field of industrial engineering, I had the advantage of gaining an insight into all financial and technical subjects. This knowledge helps me to reflect on the facets of my job and to specialize in practice."

Caroline Schuster, ICT Technology Solutions Project Support
Kapsch BusinessCom AG

"After completing my studies to become an HTL industrial engineer, I had a really broad basic knowledge, but barely any specific expertise. However, I have gained a great deal of experience in different areas such as product and partner management, business development and project management in my professional positions and now at Kapsch."

Reinhold Dastel, Delivery Business Manager
Kapsch BusinessCom AG

About Kapsch Group.
